Dear Parent/Carer,

Just to let you know there has been a recent report of head lice at school. Head lice continue to be one of the most prevalent communicable childhood diseases among children, and outbreaks are possible whenever and wherever children gather.

Can you please screen your child regularly and notify us immediately if head lice or their nits (lice eggs) are detected.

We welcome the opportunity to teach those of you who do not know how to check your child for head lice. Working together helps protect all of the children, including your own.

Thank you for your cooperation

Yours faithfully
