Bedrock Vocabulary: what is it?

Bedrock Vocabulary is an online programme that helps you learn **new vocabulary**.

It will help you learn the tricky sort of language you might come across in text books, lessons or exams.

How many of the words in the list on the left do you already know?

By working through the digital lessons, you can learn them all and hundreds more!

What do we expect from you?

Each week, you need to complete a minimum of **2 Bedrock lessons**. Your teacher will set this for you as homework or as classwork.

Each week, they are emailed a report that looks like this:

This means they can tell who's been improving their vocabulary and who hasn't!

Don’t forget the drip drip drip!

The best way to learn new words is to revisit them over a period of time. Each Bedrock lesson is drip fed every 48 hours.

This means that you can’t do all of your Bedrock lessons at the last minute on Sunday night!

A perfect approach looks like this:

Monday – Bedrock lesson 1

Wednesday – Bedrock lesson 2

Friday or any day on the weekend – Bedrock lesson 3

You do a test to start with. This shows us how much of the language you already know.

Then you work your way through the lessons and games.

At the end of each unit, you are tested to see how much progress you've made.
