With another lockdown in place from Thursday 5th November 2020, we know that without time to socialise with friends and family members who aren't in the household can have an effect on young people's mental wellbeing.

With schools remaining open it is a positive for both student's education and allowing them to socialise with friends and peers of their own age group (socially distanced of course).

Below is a link to some information from the YoungMinds charity supporting parents with their child's mental wellbeing during a COVID lockdown.

Nine dots are arranged in a square pattern as shown below.
Scott joins three of the dots with straight lines to make different triangles.

If two triangles can be rotated or reflected to be exactly the same then they do not count them as different.

These three triangles are the same.

These two triangles are different.

How many different triangles can Scott make?

Extension: How many different quadrilaterals could Scott make by joining four dots?
If the whole square has an area of 1cm^2 , find the area of each triangle/quadrilateral.

Theme: Be Wise ...

Sometimes the frustration of hearing one of your parents say 'I told you so ...' can be so annoying. And even in my late 40s it doesn't change! The wisdom of age, despite the fact I'm getting older, still seems to be with the older generation. But now, at least I can say it to those younger than me ... I just need to not look so smug when I say it!

Wisdom does come with experience and by learning from our experiences and those of others that we grow wiser. We just have to be prepared to really listen to life's lessons.

It's hard to imagine God being described as foolish (or daft) and yet 1 Corinthians 1: 25 tells us that '... the foolishness of God is wiser than human wisdom'. So, this week, if we can focus on listening to God's teachings through the Scriptures then there is hope for us all to benefit from His wisdom.

[Mr Doust]

“Wisdom is the reward you get for a lifetime of listening when you would rather have talked”

Mark Twain
