# Why History/Geography and French/Spanish?

## EBacc impact

The EBacc is made up of the subjects which are considered essential to many degrees and open up lots of doors.

Research shows that a pupil's socio-economic background impacts the subjects they choose at GCSE, and that this determines their opportunities beyond school.

A study by the UCL Institute of Education shows that studying subjects included in the EBacc provides students with greater opportunities in further education and increases the likelihood that a pupil will stay on in full-time education. Sutton Trust research reveals that studying the EBacc can help improve a young person's performance in English and maths.

The government's ambition is to see 75% of pupils studying the EBacc subject combination at GCSE by 2022, and 90% by 2025.

# **How do I decide which subjects to choose?**

Listen to the information given out today and ask questions.

Think about how you are getting on in your subjects at present and think about what you might like to do after Year 11

# Informed Choices

**“If you don’t know what you want to study at university then it’s a really good rule of thumb that taking two facilitating subjects will keep a wide range of degree courses open to you.”**

Do not be swayed by what your friends are doing

Unfortunately, not, but every effort will be made to ensure that as many students as possible will get what they want.  
Some courses may not run.
